Dear Customers, Suppliers and Partners

Re: Hammer & Tuffy's Granola

We are excited to advise our recent acquisition of **Hammer & Tuffy's LLC** from founders Bruce and Judy Sarvis, of Portland, Oregon.

We're thrilled that both Judy and Bruce have agreed to work on-going with Annex as we jointly develop plans to grow the Hammer & Tuffy's brand; alongside our Australian Made brand Red Tractor (www.redtractorfoods.com.au). We have had the pleasure to working closely with Bruce and Judy since our first trip to Portland in March this year.

No changes are planned (other than new banking details) to how Hammer & Tuffy's has operated – in fact we're looking to expand Judy's role and tell her granola story more as we grow. We will continue to produce our products in Eugene, Oregon – with plans already underway to grow the USA footprint.

Since our establishment in 1997 in Melbourne, Australia we've learned that business thrives on people, relationships, vision and having a plan. In our brief experience the USA market is no different - we're looking forward to growing our network of partners and working alongside other driven, passionate people.

Current COVID restrictions in Australia and the USA prevent us travelling back to Portland – rest assured once this is deemed safe we will once again return. Michael is a former Portland resident, having lived locally for 2 years in his 20's; he's very keen to come back more often. We look forward to meeting you.

Regards
